Vehicle Usage

- <http://www.maplewoodbicycle.com/>
Maplewood Bicycle is a local bicycle store with a focus on helping your ride be safe, sound and fun. “Green” your commute and adopt a healthier lifestyle by making biking part of your everyday transportation.
- Maplewood is part of two new phases of bike trails that will be installed over the next couple years. One is through Bike St. Louis, <http://www.bikestlouis.org/>, and the other through Great Rivers Greenway, <http://www.greatrivers.info/>

- <http://www.metrostlouis.org/FaresPasses/TransitBenefitProgram.aspx>
Check out this guideline from Metro St. Louis on how to incorporate various tax and finance benefits into your decision of how you commute to work. Hit the home button in the upper left portion of the website to explore the various commuting options offered to you through Metro St. Louis
- <http://www.ridefinders.org/>
This free service connects you to other commuters in the area for an easy and convenient carpool to your job. Through various commuters’ efforts this initiative has already eliminated almost 2 million pounds of air pollution from our atmosphere.
- http://www.enterprise.com/content/car_rental/st-Louis-weCar.html
WeCar is a program designed by Enterprise to encourage car sharing in the St. Louis region. Fill out an online application and after approval you can cheaply rent hybrid cars located in the downtown St. Louis area.
- <http://www.trailnet.org/>
Are you a biker or interested in becoming a biker? Trailnet can help set you up with the know-how needed to start your commute to work and become a part of the biker community in St. Louis. If its biker related, chances are good that Trailnet is involved.
