Renewable Energy

- <http://www.ameren.com/sites/ae/Environment/Renewables/Pages/RenewablesPurePower.aspx>
For an average of \$15 dollars more a month, you can offset your conventional energy consumption with a 1 megawatt purchase of renewable energy sources. The Pure Power Program was designed by Ameren to give consumers an easy way to support renewable energy while paying their bills. The extra \$15 expense covers the extra cost of purchasing renewable energy credits. Find out more about the program and how to sign up from the link above!

Interested in Solar Energy? Ameren has a great website that will walk you through the basics of how to take the first steps towards having solar panels installed on your home. Relevant information includes a list of available rebates, a calculator as to how much solar will save you, some informational tools on how solar works and much more.

- www.facebook.com/EarthFirstSolar
Earth First Solar is a St. Louis based solar company recommended by some residents within Maplewood. Check out their facebook page to find out more about them.
